

Meta Campaign Analysis & Strategic Roadmap:

Objective:

To evaluate past campaign performance on Meta, optimize ad spend and creative strategy, and drive better results via a phased plan.

Time Frame Analyzed:

Last 4 weeks (4/5/25 - 31/5/25)

Agenda:

- Analyze past campaign performance for actionable insights
- Recommendation and insights
- Strategic roadmap

Key Learnings And Opportunities

1. Heavy Dependence on One Campaign:

- *Advantage+ RNB* contributes ~96%+ of revenue in the latest week. **Risky to rely so heavily on one asset without diversifying winners.**

week	Impr.	Sum of Clicks	Cost	Conv.	Revenue	ROAS	CTR	CVR	CPC

Grand Total	1,041,728	34,082	\$6,144	91	6242.01	1.02	3.27%	0.27%	\$0.18

2. Low Overall Conversion Rate (CVR):

- CVR across the account is just 0.27% which is **far below benchmark**. Indicates landing pages, audience selection, or **funnel steps may need optimization**.

3. Wasted Spend on Zero-Converting Campaigns:

- Several campaigns (e.g., *Afro June, New Engagement UK, New Traffic Disco*) **show spend but zero conversions** and this budget can be reallocated for better efficiency.
- **High number of traffic-focused campaigns:** Diluting budget and efficiency
- **Inefficient Spend Allocation:** 50% of total spend is not optimized toward performance outcomes

4. CTR Can Improve Further:

- Avg. CTR is 3.27%, which is decent, **but given Meta's potential, there's room to test stronger creatives and hooks**.

5. Low ROAS:

- Return on Ad Spend < 1 (Ideal: 3–4%)

6. High Cost Per Result (CPR):

- Needs benchmarking and improvement

Target Metrics *(To be finalised post audit discussion)*

KPI	Current	Ideal
ROAS	<1	3–4
CPR	High	To be reduced by ~30–40%
Conversion Rate	0.27% (Across account) 2.01% (Last Week ASC+)	Industry-standard (based on product)

Way Forward – Phased Strategy

Project Trial Roadmap

Week	Focus Area
Week 1	Campaign Restructuring & Initial Launch: • ASC+ and Prospecting campaign setup • Initial audience research and segmentation • Current campaign optimization & consolidation to reduce overlap
Week 2	Retargeting & Remarketing Campaigns: • Launch based on Week 1 audience insights - Launch remarketing and retargeting layers using warm audiences - Test lookalike audiences based on high-intent actions • Optimization of targeting and creative messaging
Week 3	Creative & Performance Optimization: • Deeper creative strategy testing • Core campaign adjustments based on performance • Continued audience refinement
Week 4	Final Reporting & Strategic Review: • Week-on-week performance summary • Full 4-week analysis • Strategic discussion and next steps - Finalize media plan for the next 2–3 months - Set clear budget allocations based on Phase 1–4 learnings - Lock campaign objectives: Awareness, Conversion, Retention
